Subject: [External_Sender] Follow up: FOIAonline Next Steps Meeting

Good afternoon,

I wanted to again thank everyone for your time yesterday and the terrific discussion that we had. The FOIAonline program staff will be working to get a lot of the information requested out by the end of this week.

- All FOIAonline user main POCs will be receiving a list of all main POCs by Friday.
- All FOIAonline user main POCs will be receiving a list of potential vendors we are currently aware of by Friday.
- Everyone on this email chain will be receiving invitations to demonstrations by some of the potential vendors of their solutions/tools (those that have responded to our inquiries). This will begin once dates/times are set.

I also want to make another pitch for everyone to attend the Chief FOIA Officer Technology Committee's NexGen FOIA Tech Showcase in February. After yesterday's call I reached back out to the Technology Committee to make sure I understood the types of potential vendors/solutions that will be present at the showcase. I am letting you know that case management solutions will be present at the showcase.

You can read the [blog post here](#) where the Technology Committee first announced the RFI's publication ([link to RFI](#)). It is a multi-faceted RFI that seeks vendor submissions on 7 different topics, including case management. The deadline was extended from 11/23 to 12/8 due to the Thanksgiving shuffle and so far there are about 9 sets of submissions from vendors, most of which cover more than a single topic. It is anticipated that additional submissions will come in over the next 7 days and the Technology Committee is excited with the submissions thus far.

Jeff, Laura, Jasper and I are committed to helping you make this transition as smooth and seamless as possible. Please do not hesitate to reach out with any questions. We expect to have our next Partner meeting in mid-January to provide additional information, outline our next steps, and continue to listen to your feedback and answer outstanding questions. We will also be holding a Change Control Board meeting the week of December 13th to discuss requirements and needs surrounding Record Schedules that may impact exports, migrations and the transitions. In addition, beginning in January and continuing through March, we will reach out to schedule a one-on-one technical consultation with each partners for an hour, if they feel that would be helpful.

Thank you,
-Brian

*FOIAonline Partner Meeting
Sunsetting Overview and Next Steps*

November 30, 2021

1:00pm – 2:00pm

Teams Meeting

Agenda

- I. Sunset Announcement
- II. Meeting Purpose and Structure
- III. Sunsetting Decision Rationale
- IV. Overview of Sunsetting Schedule
- V. FOIAonline Sunsetting Support
 - a. Partner input and feedback will help drive the communications and FOIAonline support elements of this transition.
 - b. Partner needs/concerns/questions/requests related to sunsetting should be sent to our FOIAonline team (Jeff, Jasper, and Laura). This allows for a central focal point for these communications and allows our contractors and help desk to maintain focus on everyday operations. Please don't go through our contractors or help desk, as they need to maintain focus on everyday FOIAonline operations.
- VI. Upcoming meetings and events

Meeting: We would like to host a series of meetings to feed you information and to address your information needs. Thus far, **some proposed meeting topics for the near future include** (meetings will take place every two weeks):

 - **Sunsetting Process Logistics/Timing (tentatively scheduled for early January 2022):**
Phasing/timing of sunsetting that includes timing for last year-end report, migrating data, and a code freeze. Accessibility to data after sunsetting, public notifications
 - To be Scheduled in late January 2022
 - **Budget and MOUs/MOAs:**
 - **Case Management Alternatives:**

Event: NexGen FOIA Tech Showcase in February 2022

The information that we have on this event is as follows:

The Chief FOIA Officers (CFO) Council's Technology Committee, in conjunction with The Office of Information Services (OGIS) at the National Archives and Records Administration and the U.S. Department of Justice (DOJ) Office of Information Policy (OIP), are hosting an event for federal agencies in February 2022 called the ***NexGen FOIA Tech Showcase***.

The purpose of this two-day event is to identify FOIA technology solutions for federal agencies in response to existing FOIA case processing challenges raised through the Technology Committee's research. Additionally, the event is intended to help federal agencies better understand the promise of artificial intelligence and advanced/emerging technology for case processing.

On the first day of the showcase, FOIA practitioners and industry partners will share issues, insights, and explore potential solutions in the following areas:

- eDiscovery/electronic record search tools
- Case processing tools (including the collection of records to review for redaction and posting accessible 508 compliant releases)
- Redaction tools (including tools that allow for automatic redaction of similar forms and record types including paper, digital content, videos, data, etc.)
- Artificial Intelligence (AI) tools that may assist with FOIA case processing.

On the second day, attendees will discuss how these tools can improve agency FOIA programs in the following ways:

- The future of FOIA
- Improved public FOIA reading rooms/websites
- Improving the FOIA customer experience

Subject: [External_Sender] FOIAonline Next Steps and Future

Good afternoon,

I am reaching out to announce that EPA, in consultation with the Office of the Federal Chief Information Officer, has decided to sunset the FOIAonline Shared Service by the end of FY23.

We are sharing this notice at our earliest opportunity and I want to assure you that we will continue to support your FOIA requests and case management needs until that time. Moreover, we will provide assistance to you during the off-boarding process and support migration efforts as we all work to ensure everyone succeeds and stays well informed.

We will be holding an initial meeting for the FOIAonline partners on Tuesday, November 30th to discuss this decision, listen to your needs and questions, and provide our high level plans for the next two years so you can begin your program's transition. I want to reiterate that our team will continue to work with each of you and your programs over the next two years to assist you in the ongoing operations of FOIAonline and your transition to whatever alternative FOIA case management solution you select.

Thank you, and as always, please feel free to reach out to me at any time.

Subject: [External_Sender] FOIAonline Advisory Board Contacts & Case Management Solutions
Attachments: Potential FOIA Case Management Solutions.pdf, FOIAonline Advisory Board Contacts.pdf

Good morning and happy Friday.

You are receiving this email because you are listed as a point of contact for your Agency/Department as a representative for the FOIAonline Advisory Board or your point-of-contact has asked that you be included in the emails and meeting invites for the FOIAonline Advisory Board. During our FOIAonline discussion this past Tuesday there was interest by many of you to have each other's contact information. Therefore, attached to this email you will see a PDF titled "FOIAonline Advisory Board Contacts". This is the most updated information we have and in some cases we have been asked to include multiple individuals from a single Agency/Department. If you have changes to your list and/or would like to designate a single point of contact, please let me know by COB Friday December 10th and include Laura Johnson and Ashley Wheeler in your response (both are cc'd on this email). If there are any changes I will send an updated list the week of December 13th.

In addition, you all should have received and will continue to receive invitations to participate in demonstrations from potential vendors that offer FOIA case management solutions. I have attached, as requested, a list of potential FOIA case management solutions and where I have it, the contact information for each. All of the ones for which I have contact information for have agreed to provide a demonstration by the end of January 2022 and I am working to schedule those. In addition, I am waiting to hear back from the remaining potential vendors on that list and will share updated contact information as it becomes available.

As always, if there anything that Jeff, Laura, Jasper or I can do for you or if you have any questions please do not hesitate to reach out.

Good Morning,

We have a conflict in attending some of the meeting today at 1 pm on this topic. Will there be slides, or other information, sent out to all agency POCs from the meeting? Will there be future meetings on this topic for agency POCs?

We at NRC will most likely be contacting you outside the meetings with our specific questions,

*FOIAonline Partner Meeting
Sunsetting Overview and Next Steps*

November 30, 2021

1:00pm – 2:00pm

Teams Meeting

Agenda

- I. Sunset Announcement
- II. Meeting Purpose and Structure
- III. Sunsetting Decision Rationale
- IV. Overview of Sunsetting Schedule
- V. FOIAonline Sunsetting Support
 - a. Partner input and feedback will help drive the communications and FOIAonline support elements of this transition.
 - b. Partner needs/concerns/questions/requests related to sunsetting should be sent to our FOIAonline team (Jeff, Jasper, and Laura). This allows for a central focal point for these communications and allows our contractors and help desk to maintain focus on everyday operations. Please don't go through our contractors or help desk, as they need to maintain focus on everyday FOIAonline operations.
- VI. Upcoming meetings and events

Meeting: We would like to host a series of meetings to feed you information and to address your information needs. Thus far, **some proposed meeting topics for the near future include** (meetings will take place every two weeks):

 - **Sunsetting Process Logistics/Timing (tentatively scheduled for early January 2022):**
Phasing/timing of sunsetting that includes timing for last year-end report, migrating data, and a code freeze. Accessibility to data after sunsetting, public notifications
 - **To be Scheduled in late January 2022**
 - **Budget and MOUs/MOAs:**
 - **Case Management Alternatives:**

Event: NexGen FOIA Tech Showcase in February 2022

The information that we have on this event is as follows:

The Chief FOIA Officers (CFO) Council's Technology Committee, in conjunction with The Office of Information Services (OGIS) at the National Archives and Records Administration and the U.S. Department of Justice (DOJ) Office of Information Policy (OIP), are hosting an event for federal agencies in February 2022 called the ***NexGen FOIA Tech Showcase***.

The purpose of this two-day event is to identify FOIA technology solutions for federal agencies in response to existing FOIA case processing challenges raised through the Technology Committee's research. Additionally, the event is intended to help federal agencies better understand the promise of artificial intelligence and advanced/emerging technology for case processing.

On the first day of the showcase, FOIA practitioners and industry partners will share issues, insights, and explore potential solutions in the following areas:

- eDiscovery/electronic record search tools
- Case processing tools (including the collection of records to review for redaction and posting accessible 508 compliant releases)
- Redaction tools (including tools that allow for automatic redaction of similar forms and record types including paper, digital content, videos, data, etc.)
- Artificial Intelligence (AI) tools that may assist with FOIA case processing.

On the second day, attendees will discuss how these tools can improve agency FOIA programs in the following ways:

- The future of FOIA
- Improved public FOIA reading rooms/websites
- Improving the FOIA customer experience

Note to requester: Portions of this record are redacted under FOIA Exemption B5, Deliberative Process Privilege.

<perkins.shannon@epa.gov>
Subject: [External_Sender] Re: FOIAonline Next Steps and Future

Good morning (b)(5)

Our road map for the next 2 years will focus on guiding the Partners through the sunseting process which will include assisting Partners in the pursuit of finding a new FOIA case management solution. This information and more details pertaining to the sunseting timeline will be shared during a Partner meeting scheduled for November 30th. You should have received an invitation. Please let me know if you haven't.

On December 30, 2023, the FOIAonline Program will completely shutdown and shutter. In anticipation of this final action, FOIAonline engineering efforts will create custom data exportation scripts for each Partner Agency. These scripts will be able to output Agency data in many desired formats to allow Partners to export their FOIAonline data to their new vendor well ahead of the December 30th shutdown date.

We will provide more details about the process and timeline at our next Partner meeting, and we plan for a series of meetings thereafter, to cover specific topics such as that which you raised. Thanks for expressing your concerns. Partner input and feedback will help drive the communications element of this transition.

Subject: [External_Sender] FOIAonline Next Steps and Future

Good afternoon,

I am reaching out to announce that EPA, in consultation with the Office of the Federal Chief Information Officer, has decided to sunset the FOIAonline Shared Service by the end of FY23.

We are sharing this notice at our earliest opportunity and I want to assure you that we will continue to support your FOIA requests and case management needs until that time. Moreover, we will provide assistance to you during the off-boarding process and support migration efforts as we all work to ensure everyone succeeds and stays well informed.

We will be holding an initial meeting for the FOIAonline partners on Tuesday, November 30th to discuss this decision, listen to your needs and questions, and provide our high level plans for the next two years so you can begin your program's transition. I want to reiterate that our team will continue to work with each of you and your programs over the next two years to assist you in the ongoing operations of FOIAonline and your transition to whatever alternative FOIA case management solution you select.

Thank you, and as always, please feel free to reach out to me at any time.

Subject: [External_Sender] FOIAonline Advisory Board Contacts & Case Management Solutions

Good morning and happy Friday.

You are receiving this email because you are listed as a point of contact for your Agency/Department as a representative for the FOIAonline Advisory Board or your point-of-contact has asked that you be included in the emails and meeting invites for the FOIAonline Advisory Board. During our FOIAonline discussion this past Tuesday there was interest by many of you to have each other's contact information. Therefore, attached to this email you will see a PDF titled "FOIAonline Advisory Board

Contacts". This is the most updated information we have and in some cases we have been asked to include multiple individuals from a single Agency/Department. If you have changes to your list and/or would like to designate a single point of contact, please let me know by COB Friday December 10th and include Laura Johnson and Ashley Wheeler in your response (both are cc'd on this email). If there are any changes I will send an updated list the week of December 13th.

In addition, you all should have received and will continue to receive invitations to participate in demonstrations from potential vendors that offer FOIA case management solutions. I have attached, as requested, a list of potential FOIA case management solutions and where I have it, the contact information for each. All of the ones for which I have contact information for have agreed to provide a demonstration by the end of January 2022 and I am working to schedule those. In addition, I am waiting to hear back from the remaining potential vendors on that list and will share updated contact information as it becomes available.

As always, if there anything that Jeff, Laura, Jasper or I can do for you or if you have any questions please do not hesitate to reach out.

-Brian

Subject: [External_Sender] Follow up: FOIAonline Next Steps Meeting

Good afternoon,

I wanted to again thank everyone for your time yesterday and the terrific discussion that we had. The FOIAonline program staff will be working to get a lot of the information requested out by the end of this week.

- All FOIAonline user main POCs will be receiving a list of all main POCs by Friday.
- All FOIAonline user main POCs will be receiving a list of potential vendors we are currently aware of by Friday.
- Everyone on this email chain will be receiving invitations to demonstrations by some of the potential vendors of their solutions/tools (those that have responded to our inquiries). This will begin once dates/times are set.

I also want to make another pitch for everyone to attend the Chief FOIA Officer Technology Committee's NexGen FOIA Tech Showcase in February. After yesterday's call I reached back out to the Technology Committee to make sure I understood the types of potential vendors/solutions that will be present at the showcase. I am letting you know that case management solutions will be present at the showcase.

You can read the [blog post here](#) where the Technology Committee first announced the RFI's publication ([link to RFI](#)). It is a multi-faceted RFI that seeks vendor submissions on 7 different topics, including case management. The deadline was extended from 11/23 to 12/8 due to the Thanksgiving shuffle and so far there are about 9 sets of submissions from vendors, most of which cover more than a single topic. It is anticipated that additional submissions will come in over the next 7 days and the Technology Committee is excited with the submissions thus far.

Jeff, Laura, Jasper and I are committed to helping you make this transition as smooth and seamless as possible. Please do not hesitate to reach out with any questions. We expect to have our next Partner meeting in mid-January to provide additional information, outline our next steps, and continue to listen to your feedback and answer outstanding questions. We will also be holding a Change Control Board meeting the week of December 13th to discuss requirements and needs surrounding Record Schedules that may impact exports, migrations and the transitions. In addition, beginning in January and continuing through March, we will reach out to schedule a one-on-one technical consultation with each partners for an hour, if they feel that would be helpful.

Thank you,

-Brian

Subject: Notes from the FOIAOnline Partner Meeting

Good Evening,

I attended the FOIAOnline partner meeting that took place today at 1pm. They discussed their decision to sunset the program and some of the next steps for the partners. Here are my notes.

- Many of the partners felt blindsided by the decision to sunset the program and requested assistance in setting up a working group of FOIAOnline partners.
- The team (Jeff, Jasper, and Laura) plan on sending out a POC list of all of the partners currently participating in FOIAOnline, the tentative schedule, and a list of resources containing FOIA case management and redaction vendors.
- The team encouraged all the current partners to start reviewing other case management systems (now) and recommended that we all participate in the Technology Showcase in February.
- The decision to sunset the program was a joint venture with EPA, OGIS, DOJ, and OIP. In order for FOIAOnline to keep up with some of the technological advances that are present in many off the current COTS products it would cost a significant amount of time and money (in excess of 2 mil).

- The partners requested that EPA let us know how much data each partner has stored in the system in order to help with the cost estimates of new products. This would also be beneficial for data migration.
- EPA plans on starting to build out the script for data migration in January.
- More details will be coming in January dealing with the accessibility of data.

Date: Wednesday, December 01, 2021 2:54:42 PM

Hi everyone,

I have now entered our team's shortfalls into the SharePoint site below. As of a few minutes ago, no SharePoint page loads, but I can double-check tomorrow morning that my entries saved. All of my data was in there when I was last in the site.

We have two shortfall requests: a very small amount for RedactXpress, (b)(5)

(b)(5)

(b)(5)

I entered (b)(5) for both of these entries.

Hello, (b)(5)

You may have already received this from Nikki but I wanted to make sure that you had it so that you had time to work on it.

Thank you.

Subject: Notes from the FOIAOnline Partner Meeting

Good Evening,

I attended the FOIAOnline partner meeting that took place today at 1pm. They discussed their decision to sunset the program and some of the next steps for the partners. Here are my notes.

- Many of the partners felt blindsided by the decision to sunset the program and requested assistance in setting up a working group of FOIAOnline partners.
- The team (Jeff, Jasper, and Laura) plan on sending out a POC list of all of the partners currently participating in FOIAOnline, the tentative schedule, and a list of resources containing FOIA case management and redaction vendors.
- The team encouraged all the current partners to start reviewing other case management systems (now) and recommended that we all participate in the Technology Showcase in February.
- The decision to sunset the program was a joint venture with EPA, OGIS, DOJ, and OIP. In order for FOIAOnline to keep up with some of the technological advances that are present in many of the current COTS products it would cost a significant amount of time and money (in excess of 2 mil).
- The partners requested that EPA let us know how much data each partner has stored in the system in order to help with the cost estimates of new products. This would also be beneficial for data migration.
- EPA plans on starting to build out the script for data migration in January.

More details will be coming in January dealing with the accessibility of data.

Subject: corrections in FOIA Team's response to: Preparation for November 29 Information Management Service Meeting
Date: Wednesday, November 24, 2021 7:51:05 AM

I made a few errors in this email, they are corrected below in bold. The main item I corrected was that (b)(5) (I was really tired when I wrote this)

From: (b)(5)

Subject: FOIA Team's response to: Preparation for November 29 Information Management Service Meeting

(b)(5) now has access to the spend plans in BFS, but not for our support services contract. I've answered the questions below for all 3 of our current contracts, and for our new procurement, from Nikki's questions in bold. I have also addressed their question that is highlighted below. I added some extra information in case you need it.

(b)(6)

Non Responsive Record

Non Responsive Record

-

- FOIAOnline IAA with the EPA (Shared Service) (Contract number: NRC-HQ-10-17-I-0004)
Chose option #1 below. Spend plan in BFS has been entered to May 2021. (b)(5)

(b)(5)

Current level of service: Only the FOIA team uses this product for tracking FOIA cases.

Future level of service: (b)(5)

(b)(5)

Prioritization: (b)(5)

(b)(5)

Are the projects resourced appropriately?: Do not know. EPA, who manages the system, can not provide the NRC with a monthly or quarterly burn rate. They can not tell us when the NRC would be IPAC'd, or for how much, which results it being fully-funded at the

start of each option year. EPA goes into the "pot" of each participating agency when needed. Also, the IPAC does not state what the NRC funds were used for. There is no transparency. We do not know if the service is resourced appropriately due to lack of transparency.

Has a newer technology been identified? Or is this contract obsolete?: (b)(5)

(b)(5)

(b)(5) This contract will be obsolete starting on 9/29/2022, (b)(5)

(b)(5)

Subject: Action: Preparation for November 29 Information Management Service Meeting

Hello Everyone,

Nick and I are meeting with each OCIO Service Area to review their resources and prioritize the projects among all OCIO's projects.

The key information to ensuring funding requirements are management is to receive the forward spending projections/spend plans for the fiscal year through December 2022. A COR can provide their forward funding projections by completing the below: (Additional help can be provided by the BFSHelp.Resource@nrc.gov)

1. enters a spend plan for each contract and each accounting string or

2. activate predictive planning for each contract and each accounting string.

It is imperative that each funding need has a contract or APP and there is spend plan at each accounting string level.

Please ensure this action is take 3 days before the meeting (November 24).

With the forward funding projections, FMB will align your funding needs (full year funding requirements minus the forward funding yielding a negative spend plan balance) against the budget for the cost center.

Project	Forward Funding	Spend plan X 12	True Need (Spend plan X 12 – Forward funding)	Budget	Balance (Budget – True Need)	Impact (Positive=available funds; Negative = shortfall)
A	\$300,000	\$1,200,000	\$900,000	\$1,100,000	\$200,000	Excess
B	\$300,000	\$1,200,000	\$900,000	\$500,000	- \$400,000	Shortfall

We will discuss the following in regards to your service:

- Current level of service
- Future level of service
- Prioritization
- Are the projects resourced appropriately?
- Has a newer technology been identified? Or is this contract obsolete?

Please let me know if you have any questions on resource planning or the meeting process.

Thanks,
Nikki
