Mr. John J. Grabnar
Site Vice President
Energy Harbor Nuclear Corp.
Beaver Valley Power Station
P. O. Box 4
Shippingport, PA 15077-0004

SUBJECT: BEAVER VALLEY POWER STATION, UNIT 2 – OPERATOR LICENSING
EXAMINATION APPROVAL

Dear Mr. Grabnar:

The purpose of this letter is to provide U.S. Nuclear Regulatory Commission (NRC) approval of the proposed written examination and operating test under Title 10 of the *Code of Federal Regulations* (10 CFR) 55.40(b)(4) and to confirm the final arrangements for the upcoming operator licensing examinations at the Beaver Valley, Unit 2 facility.

The NRC has approved the subject examinations, and you may administer the written examination on April 26, 2022, in accordance with Revision 12 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," issued September 2021. The NRC staff will administer the operating test during the weeks of April 18 and 25, 2022. The NRC has provided the list of applicants approved to take the examinations to Mr. M. Brasile, Training Manager. The examinations have undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensed operators at your facility, do not administer the examination and contact me at 610-337-5306.

Please contact your Chief Examiner, Todd Fish, at 610-337-5369, if you have any questions or identify any errors or changes in the license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination or operating test, or both) specified for each applicant approved to take the examination.

Sincerely,

Donald E. Jackson, Chief
Operations Branch
Division of Operating Reactor Safety
