SUBJECT: HONEYWELL METROPOLIS WORKS TRIENNIAL UPDATE TO  
DECOMMISSIONING FUNDING PLAN: ASSESSMENT OF  
RESPONSES TO REQUEST FOR SUPPLEMENTAL INFORMATION  
AND CONTINUATION OF REVIEW (ENTERPRISE PROJECT  
IDENTIFICATION NUMBER L-2022-DFA-0000)

Dear Sean Patterson:

By letter dated January 5, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML22011A197), Honeywell International Inc. (Honeywell) submitted its triennial update to its Decommissioning Funding Plan (DFP), in accordance with the requirements in Title 10 of the *Code of Federal Regulations* (10 CFR) Paragraph 40.36(d)(2).

By letter dated March 14, 2022 (ADAMS Accession No. ML22055A574), the U.S. Nuclear Regulatory Commission (NRC) staff informed you that it had performed an acceptance review of your submittal to determine if it contained sufficient technical information to allow the NRC staff to proceed with its technical review. However, based on the acceptance review of the submittal, the NRC staff determined that it did not contain sufficient technical information. Enclosed with its letter, the NRC staff provided a request for supplemental information (RSI) discussing the specific information that was needed to proceed with the detailed technical review. By letter dated March 24, 2022, Honeywell provided the responses to the NRC staff's RSI (ADAMS Accession No. ML22088A073).

The NRC staff has completed its review of your responses to the RSI and determined that you have provided sufficient information to proceed with the full review of Honeywell's DFP and associated supplemental information. Please note that the NRC staff's technical review of your submittal may identify issues that would require additional information to be provided. Based on our evaluation of the information provided, and projection of current review schedules, we anticipate completing our formal review of the updated DFP by the end of July 2022. This schedule includes the issuance, if needed, of a request for additional information (RAI) by May 18, 2022, and receiving your responses to the RAIs within 30 days after issuance. Please note that this date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule. In addition, the NRC staff estimates that completing the review of your submittal will require approximately 70 staff hours which corresponds to about \$20,160.00 (\$288.00/hr).

Your submittal has previously been assigned Enterprise Project Identifier (EPID) Number L-2022-DFA-0000. Please ensure you reference this EPID number and Docket Number 04003392 in any future correspondence associated with this request.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this communication will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records component of the NRC's ADAMS. The NRC's ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). The PDR is open by appointment only. You may submit your request to the PDR via e-mail at [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

If you have any questions concerning this letter, please contact me at 301-415-7827, or via e-mail at [Osiris.Siurano-Perez@nrc.gov](mailto:Osiris.Siurano-Perez@nrc.gov).

Sincerely,

Osiris  
Siurano-Perez
