

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 20, 2022

ALL AGREEMENT STATES, CONNECTICUT, AND INDIANA

REVISION OF THE CHRONOLOGY OF THE U.S. NUCLEAR REGULATORY COMMISSION (NRC) AMENDMENTS INCLUDING SUMMARY OF CHANGE DOCUMENT FOR MISCELLANEOUS CORRECTIONS, 10 CFR PARTS 1, 2, 20, 30, 40, 50, 55, 70, 73, and 170 [RATS ID 2022-1] (STC-22-022)

Purpose: To provide the Agreement States with the Chronology of the U.S. Nuclear Regulatory Commission (NRC) Amendments including Regulation Amendment Tracking System (RATS) ID 2022-1.

Background: The NRC is amending its regulations to make miscellaneous corrections. These changes include correcting an office title, a reference, a misspelling, and two administrative errors, and updating the street address for the NRC's Region I office.

Discussion: The final rule, published on April 8, 2022, is posted in the *Federal Register* (FR), ([87 FR 20693, Published April 8, 2022](#)). The Chronology of NRC Amendments, including RATS ID 2022-1, as maintained by the Office of Nuclear Material Safety and Safeguards (NMSS) can be found on the NMSS web site at: <https://scp.nrc.gov/regresources.html>. The chronology is for your use to plan rulemaking actions that are needed to satisfy the compatibility and health and safety category designations of the NRC regulations. This document will also be used by the Integrated Materials Performance Evaluation Program teams during upcoming program reviews.

The Standing Committee on Compatibility reviewed the rule and determined that the provisions in 10 CFR Parts 20, 30, 40, and 70 of this rulemaking are a matter of compatibility with the Agreement States. However, since these regulations are designated as a D compatibility category (for Appendix D to Part 20, 30.6, 40.5, and 70.5), and NRC compatibility category (for 70.61), the Committee determined that the Agreement States do not have to adopt these provisions for compatibility purposes, nor do they need to submit them for a compatibility review.

In addition, a Summary of Change document for the April 8, 2022, amendment can be found on the NMSS web site at: https://scp.nrc.gov/rss_regamendments.html for information purposes. This summary is for your use to identify the changes to the *Code of Federal Regulations* text as well as the compatibility categories associated with those changes. As stated above, these regulations are not required for compatibility purposes and therefore there is no due date for adoption by the Agreement States.
