General Comment

Docket ID NRC-2022-0098

The Atomic Energy act of 1954 is an act of cruelty with total disregard to the rights of the people and the constitution of the United States.

In the event a victim of this act manages to obtain copyright protection and forms a Corporation the data and business belongs to the Victim.

Allowing for local jurisdictions to intervene and infringe upon the private property is fraudulent discrimination and abuse.

The planned activities have created undue hardship.
