The NRC followed up on four events (three reportable)

No safety-significant issues

No security-significant issues

The NRC grouped the events across performance areas

No cross-cutting issues

No need for additional focus by the licensee or NRC at this time

No NRC Identified Violations

No program adjustment warranted or ANI identified

Summary

- Westinghouse conducted activities safely and securely
- No Violations of Regulatory Compliance were identified
- NRC will conduct the core (routine) inspection program in the next performance assessment cycle (January 1, 2022 – December 31, 2023)

Westinghouse Remarks

NRC Response to

NRC Response to

Mission Critical Functions:

- Monitoring plant activities remotely/on-site through inspections and oversight
- Maintaining emergency response capabilities with Regional IRCs and HQ
- Limiting and risk-informing on-site inspections for region-based inspectors

NRC Response to

Additional Actions:

- Expanded use of telework
- Ongoing Review of Continuity of Operations Plan
- Coordinating actions with industry to minimize inspection schedule impacts while protecting inspectors and plant staff

Informal Question and Answer Session between the NRC and the Public

Closing Remarks
