SUBJECT: NRC License Renewal

We are writing to request a renewal to our NRC license number 39-19399-02. Our Radiation Safety Program has not significantly changed from our previous license and our level of licensed material usage has decreased. The written Radiation Safety Program is currently being administratively revised to reflect the latest approved amendments of those changes including Ronald Gagnon as the Radiation Safety Officer and the license address to Hollings Marine Laboratory, 331 Fort Johnson Road, Charleston, South Carolina 29412. Thank You for your assistance.

Sincerely,
