Gentlemen :

Re : Byproduct Materials License No. 52-21026-01

During our last Radiation Safety Committee meeting, we discussed the status of brachytherapy and I¹³¹ therapy at our hospital. Both therapies have not been practiced at Ryder for over two years and the physicians who were involved have left or are not interested in renewing either practice. It was then decided to request NRC to remove 10 CFR 35.300 and 10 CFR 35.400 as authorized uses under our license.

In addition, as part of our amendment, we wish to request the following:

1. Please remove Dr. Carlos Remedios as authorized user
2. Please add Dr. Reinaldo Laguna as authorized user. Dr. Laguna is authorized under Byproduct Materials License No. 52-25379 and No. 52-01946-07

Please advise if there is any other information you may require.

Yours truly,

Carmen Colón Meléndez
Executive Director
