No further action should be needed. A copy of the letter should be retained in ADAMS, but no assignment of a licensing action should be needed.

Ms. Blankenberger:

Thank you for the update. I have updated our files to reflect your current contact information as the Radiation Safety Officer.

Ryan Nall is also listed as a Point of Contact. If applicable, please submit a letter identifying the name, title and contact information for the new Point of Contact. Often the Point of Contact is the RSO, but may also be a member of management or someone else that would be available to receive agency correspondence.
