REGION II
245 PEACHTREE CENTER AVENUE N.E., SUITE 1200
ATLANTA, GEORGIA 30303-1200

May 26, 2022

Mr. Daniel G. Stoddard
Senior Vice President and Chief Nuclear Officer
Innsbrook Technical Center
5000 Dominion Boulevard
Glen Allen, VA 29060

SUBJECT: NORTH ANNA POWER STATION – NRC INITIAL LICENSE EXAM APPROVAL
05000338/2022301 AND 05000339/2022301

Dear Mr. Stoddard:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written examination at North Anna Power Station (Units 1 and 2).

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examinations, and you may administer the written examination in accordance with Revision 12 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of June 13, 2022. The NRC staff will administer the operating tests during the week of June 6, 2022. The list of the applicants approved to take the examination has been provided to your office. The examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (404) 997-4703.

Please contact your Chief Examiner, Mr. Michael Kennard, at (404) 997-4627, if you have any questions or identify any errors or changes in license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination or operating test, or both) specified for each applicant approved to take the examination.

Sincerely,

/RA/

Thomas A. Stephen, Chief
Operations Branch 1
Division of Reactor Safety

Docket No.: 50-338, 50-339
License No.: NPF-4, NPF-7
