Columbia, MD 21046

**SUBJECT: ACCEPTANCE LETTER FOR THE REVIEW OF THE MODEL NO. TN-40  
PACKAGE**

Dear Don Shaw:

By letter dated December 16, 2021 (Agencywide Documents Access and Management System Package Accession No. ML21350A282), TN Americas LLC submitted an amendment request for Revision No. 4 to Certificate of Compliance No. 9313 for the Model No. TN-40 package. The staff performed an acceptance review of your application to determine if it contained sufficient technical information in scope and depth to allow the staff to complete a detailed technical review.

Observations from our acceptance review are included in the enclosure to this letter. However, the application contains the necessary information to begin our detailed technical review. We have established a schedule for the review of your application which allows for the staff to issue a possible request for additional information by the end of December 2022, and a certificate of compliance and safety evaluation report by early December 2023, based on you responding to our request for additional information by May 31, 2023. The staff estimates that completing the safety review of this application will require approximately 500 staff hours.

Please reference Docket No. 71-9313 and Enterprise Project Identifier (EPID) No. EPID L-2021-LLA-0086 in future correspondence related to this request.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Saverot", is positioned above the typed name.

Signed by Saverot, Pierre  
on 06/15/22

Pierre M. Saverot, Project Manager  
Storage and Transportation Licensing Branch  
Division of Fuel Management  
Office of Nuclear Material Safety  
and Safeguards
