SUBJECT: CLOSURE OF INVESTIGATIONS (OI 4-2020-011, 4-2020-013, and 4-2020-015)

Dear Mr. Giddens:

This refers to investigations conducted by the U.S. Nuclear Regulatory Commission's (NRC's) Office of Investigations regarding activities at the Grand Gulf Nuclear Station. The Office of Investigations initiated the investigations to determine whether (1) a National Academy for Nuclear Training e-Learning (NANTeL) Exam Proctor deliberately failed to monitor a computer-based training (CBT) Fitness for Duty (FFD) examination; (2) security personnel willfully provided incomplete and inaccurate security training documents; and (3) an Access Authorization Fitness for Duty Coordinator falsified unescorted access revalidations for two employees.

Based on the evidence developed during the investigations, the concerns described above were not substantiated. The NRC plans no further action related to the willful aspects of these allegation and considers these investigations closed.

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, "Requests for Records."
