**SUBJECT: ADDITIONAL RESPONSE TO NRC REQUEST FOR ADDITIONAL INFORMATION
LETTER DATED JUNE 3rd 2022 REGARDING LICENSE RENEWAL APPLICATION FOR THE
UNIVERSITY OF CALIFORNIA – DAVIS/MCCLELLAN NUCLEAR RESEARCH CENTER.**

The purpose of this letter is to provide a supplemental response (original response submitted June 22nd) to the RAI letter received by UCD/MNRC from the NRC on June 3rd 2022. The June 22nd response only contained a redacted version the updated MNRC Emergency Plan. Included with this submission is a non-redacted version of the MNRC Emergency Plan. The change in effectiveness of the updated Emergency Plan has been evaluated by the UCD/MNRC staff and an analysis has determined that the changes do not represent a reduction in the effectiveness of the Plan. The updated Emergency Plan is, therefore, being submitted to the NRC for informational purposes only under the provisions of 10 CFR 50.54q(5).

I declare under penalty of perjury that the foregoing is true and correct executed on June 23rd, 2022.

Sincerely,

A handwritten signature in black ink, appearing to read "Wesley Frey", is written over a horizontal line.

Wesley Frey PhD
Facility Director
