

Estimated burden per response to comply with this mandatory information collection request: 9.5 minutes. NRC requires this information to populate the National Source Tracking System for certain sealed sources. Send comments regarding burden estimate to the FOIA, Library, and Information Collections Branch (T-6 A10M), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by e-mail to Infocollects.Resource@nrc.gov, and the OMB reviewer at: OMB Office of Information and Regulatory Affairs, (3150-0202), Attn: Desk Officer for the Nuclear Regulatory Commission, 725 17th Street NW, Washington, DC 20503; e-mail: oira_submission@omb.eop.gov. The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the document requesting or requiring the collection displays a currently valid OMB control number.

INSTRUCTIONS TO NRC AND AGREEMENT STATE LICENSEES FOR REPORTING HIGH-RISK SEALED SOURCE TRANSACTIONS

The completed form is considered to be Official Use Only – Security Related Information; it is not considered to be Safeguards Information.

Use an addendum sheet for reporting additional sources.

Note to Licensees: This form may be used to report source transactions in lieu of using the NSTS online application. Sections 1-4 on Page 1 of the form are required for all source transaction types. Sections 5-12 should only be populated for the associated Transaction Type (3B) selected. For example, when reporting a Source Transfer and a Source Export, Sections 6 and 11 should be populated. Multiple Transaction Types may be selected if they occur on the same Transaction Date, and should be reported on NRC Form 748. Licensees reporting only one transaction type may use the condensed form for the Transaction Type. For example, when reporting a Source Receipt, NRC Form 748c should be used.

1. **Licensee Information** – Enter the name, license number, and street address of the licensed facility.
2. **Transaction Date** – Enter the date the transaction occurred, which would be the date of the transfer, receipt, manufacture, etc.
3. **Transaction Information and Transaction Type** – Indicate if this is a new transaction or a correction. For corrections, select the date of the previously submitted transaction that the correction should be associated with. Select the Transaction Type. Report Source should only be used for initial inventory submissions, or to report a source excluded from the initial inventory submission. Dispose Source should only be used by a Disposal Licensee. If you are sending your source back to the manufacturer, or sending it to a disposal facility, the transaction should be recorded as a Transfer. Multiple Transaction Types may be selected if they occur on the same Transaction Date.
4. **Preparer Information** – An email address is required for a confirmation. For regulatory purposes, your source transaction report is not considered complete without a confirmation from the NSTS Help Desk that the transaction report has been received.
5. **Source Inventory Data** – This section should only be used for initial inventory submissions. The Make, Model, and Serial Number refer to the Source, not the Device. All fields are required in Section 5 EXCEPT G. Comments. If the licensee is reporting multiple sources on the Source Inventory transaction at the same Source Location Address, the location address information may be populated once, and referenced in the Comments block for the additional sources.
6. **Source Transfer Data** – For Transfer transaction reports, all fields in Section 6 are required EXCEPT M. Waste Manifest Number, N. Container ID, and P. Comments. If the licensee is reporting multiple sources on the Transfer transaction to the same Receiving Licensee, the receiving licensee information may be populated once, and referenced in the Comments block for the additional sources.
7. **Source Receipt Data** – For Receipt transaction reports, all fields in Section 7 are required EXCEPT M. Waste Manifest Number, N. Container ID, and T. Comments. If the licensee is reporting multiple sources on the Receipt transaction at the same Source Location Address, the location address information may be populated once, and referenced in the Comments block for the additional sources.
8. **Source Disposal Data** – For Disposal transaction reports, all fields in Section 8 are required EXCEPT J. Comments. If the licensee is reporting multiple sources on the Disposal transaction at the same Source Disposal Address, the source disposal address information may be populated once, and referenced in the Comments block for the additional sources.
9. **New Manufactured Source Data** – For New Manufactured Source transaction reports, all fields in Section 9 are required EXCEPT F. Comments. If the licensee is reporting multiple sources on the Manufacturer transaction at the same Source Location Address, the location address information may be populated once, and referenced in the Comments block for the additional sources.
10. **Source Import Data** – For Import Source transaction reports, all fields are required EXCEPT L. Comments. If the licensee is reporting multiple sources on the Import transaction at the same Source Location Address, the location address information may be populated once, and referenced in the Comments block for the additional sources.
11. **Source Export Data** – For Export Source transaction reports, all fields are required EXCEPT M. Comments. If the licensee is reporting multiple sources on the Export transaction to the same Foreign Company/Foreign Address, the information in cells A-E may be populated once, and referenced in the Comments block for the additional sources.
12. **Source Disassemble Data** – For Disassemble Source transaction reports, all fields are required EXCEPT H. Comments. If the licensee is reporting multiple sources on the Disassemble transaction at the same Source Location Address, the location address information may be populated once, and referenced in the Comments block for the additional sources.
