**SUBJECT: AMENDMENT NO. 58 TO RADIOACTIVE MATERIALS LICENSE FOR
DMS HEALTH TECHNOLOGIES, NRC LICENSE NO. 40-32477-01**

Dear Nathan Dykstra,

Please find enclosed Amendment No. 58 to NRC License No. 40-32477-01 removing location where licensed material may be received, stored, and dispatched from at 305 7th Avenue SE, Watertown, South Dakota, 57201, as requested in your letter dated June 6, 2022. An environmental assessment for this licensing action is not required since this action is categorically excluded under 10 CFR 51.22(c). You should review this license carefully and be sure that you understand all conditions. You can contact me at Latischa.Hanson@nrc.gov if you have any questions about this license.

The NRC staff has reviewed your final status surveys. Based on its review, the NRC staff has concluded that all licensable radioactive material has been removed from the facility located at 305 7th Avenue SE, Watertown, South Dakota, 57201, and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facility at 305 7th Avenue SE, Watertown, South Dakota, 57201 is suitable for unrestricted use.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <https://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address: <https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

N. Dykstra

-2-

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Latischa M. Hanson, M.Sc., Health Physicist
