MAIL CONTROL NO. 630856

Dear Mr. Brown:

Enclosed is the Corrected Copy of Amendment No. 60 for License No. 01-06571-10. In accordance with the observations and findings of the NRC's inspection performed on June 15, 2022, and your communications to the NRC on January 26, 2006, and May 23, 2016, License Condition No. 8.H has been revised to authorize a maximum per-source activity of 100 mCi of Sr-90, in contrast to the 10 mCi that was previously authorized. Since this error was identified during the NRC's 2022 inspection, we are issuing a corrected copy from the most recent amendment, Amendment No. 60. However, it was noted that the error in the material authorization first appeared with Amendment No. 53, issued on July 6, 2016.

We apologize for any inconvenience this error may have caused.

Sincerely,

Christopher Cahill, Chief
Commercial, Industrial, R&D
and Academic Branch
Division of Radiological Safety and Security
