Re: Amendment of NRC License No. 21-08966-01
Additional Information Request

Attn: Sara A. Forster, Health Physicist Licensing Reviewer

Dear Ms Forster:

The purpose of this letter is to supply you with the additional information in order to amend our current NRC license.

Our facility never performed any procedures under 35.300 during the duration of it being on our license.

If you have any questions, please contact our physicist by phone at (734) 662-3197 or by email at jbotti@mpcphysics.com.

Respectfully Yours,

James M. Botti, MS
Board Certified, ABR, ABMP
Radiation Safety Officer

Subject: Additional Information to McLaren Central Michigan Amendment Request, NRC License No. 21-08966-01, CN 631815

Good morning, Mr. Botti:

Our office has reviewed your July 5, 2022 letter requesting the removal of the authorization for the use of materials as permitted under Title 10 of the *Code of Federal Regulations* (10 CFR) Section 35.300, from the referenced license.

To assist our review, could you please provide a signed and dated letter indicating the following information, as available:

- The final date under which the 10 CFR 35.300 materials were used, as authorized under Subitem No. 6.C.;
- The radionuclides and quantities of materials used under 10 CFR 35.300, under license;
- The final date on which the 10 CFR 35.300 materials were stored as decay-in-storage waste, following the final medical use of the material;
- The date on which the final decay-in-storage waste containing iodine-131 or any other decay-in-storage 10 CFR 35.300 waste was surveyed and disposed;
- A history of any spills of 10 CFR 35.300 materials, if any, under the license; AND
- A confirmation that both the decay-in-storage waste and the areas where the 10 CFR 35.300 materials were used and stored have been surveyed to confirm that no residual iodine-131, radium-223, or other applicable 10 CFR 35.300 radionuclide activity remains, under the license.

If you are unable to provide all of the requested information, please provide as much as possible together with an explanation as to why additional details are unavailable. If you could provide the information within the next 14 days (on or before July 27, 2022), it is appreciated. You may submit your information electronically as a signed and dated letter attached to an email message.

If you have any questions regarding this request, please do not hesitate to call or email me.

Sincerely,

Sara A. Forster, Health Physicist Licensing Reviewer
