Good afternoon Dan,
Due in part to the April supplement to your license renewal application, we will not be able to complete the review of your renewal application by the revised target of July 2022. Our new target for issuance is August 2022. I look forward to working with you as we complete this action.

The information in this email will be made public in ADAMS.

Please don't hesitate to contact me if you have questions or concerns.

Thanks!
