Re: Change of Ownership of Unicep Packaging Inc (GL-723617-20)

To Whom It May Concern:

Through this letter, Unicep Packaging, LLC ("Unicep") is providing notice to the Nuclear regulatory Commission, as required under 21 CFR 31.5, that it underwent a parent-level change of ownership effective upon September 30, 2021. Pursuant to the purchase and sale agreement, Unicep was converted by way of a forward merger into a newly formed Delaware limited liability company and became wholly owned by Silgan Dispensing Systems Holdings Company, a Delaware corporation. Upon such conversion the name of Unicep will become Unicep Packaging LLC, maintaining the prior name of the facility holding the license.

Following the guidance in 21 CFR 31.5, the following information is provided:

(A) The identification of the device by manufacturer's (or initial transferor's) name, model number, and serial number;

Device is a Peco Controls Corporation Gamma 101-P with Serial number: G007429308

(B) The name, address, and license number of the person receiving the device (license number not applicable if exported)

No change from the current name, address, of license holder GL-723617-20.

(C) The date of the transfer.

Device remained in the same location prior to and following the date of the transfer of ownership on September 30, 2021.

(iii) Shall obtain written NRC approval before transferring the device to any other specific licensee not specifically identified in paragraph (c)(8)(i) of this section; however, a holder of a specific license may transfer a device for possession and use under its own specific license without prior approval, if, the holder.

No transfer of the device occurred as it remained at the same location prior to the change in ownership.

(A) Verifies that the specific license authorizes the possession and use, or applies for and obtains an amendment to the license authorizing the possession and use

Previous owners of the company specifically authorize the new owners to maintain possession and use of the device with all existing personnel, controls, procedures and policies in place.

(B) Removes, alters, covers, or clearly and unambiguously augments the existing label (otherwise required by paragraph (c)(1) of this section) so that the device is labeled in compliance with § 20.1904 of this chapter; however the manufacturer, model number, and serial number must be retained

No change to the current labeling in compliance with § 20.1904. All information including manufacturer, model number and serial number are retained.

(C) Obtains the manufacturer's or initial transferor's information concerning maintenance that would be applicable under the specific license (such as leak testing procedures).

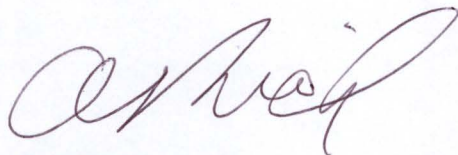

Information retained as there was no transfer of the device and the current procedures, processes and controls remain the same.

(D) Reports the transfer under paragraph (c)(8)(ii) of this section.

Transfer is being reported per this report.

All primary contacts and contact information for Unicep remain the same. The address of the facility, the nature of the operations, and the control systems in place have not changed.

Should you have any questions or concerns regarding this information, please do not hesitate to contact Alan Rich at alan.rich@unicep.com
