Subject: Marathon and Ultra Control Rod Lifetime Surveillance Update

A little over 15 years ago, Reference 1 provided a report on the surveillance of installed Marathon control rods. Consistent with the annual surveillance program updates provided in References 2 - 15, this letter provides an update to the inspections of Marathon control rods as well as plans for additional examinations and testing. The title of the surveillance program update report has been modified to reflect the surveillance updates for both Marathon-5S and Marathon-Ultra control rods.

Please note that Enclosure 1 contains proprietary information of the type that GE-Hitachi Nuclear Energy Americas LLC (GEH) maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GEH as indicated in its affidavit, which is also included in the report. The affidavit contained in Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GEH. GEH hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

Enclosure 1 is the proprietary version of the Marathon and Ultra Control Rod Lifetime Surveillance Update and Enclosure 2 is a non-proprietary version. Enclosure 3 contains the affidavit for the Marathon and Ultra Control Rod Lifetime Surveillance Update.

If you have any questions, please contact Scott Nelson at 910-819-5829 or myself.

Sincerely,

Michelle P. Catts
Senior Vice President, Nuclear Programs
