Dear Ms. Amy,

Thank you very much for your message. TMI2S (Licensee) accepts the wording of the proposed License Condition noted below.

Respectfully,

Tim

Hi Tim,

TMI-2 Solutions proposed the following LC:

"TMI-2 utilizes a security plan (TMI-2 Materials Security Plan) that is compliant with 10 CFR Part 37 "Physical protection of category 1 and category 2 quantities of radioactive material" to implement the requirements for 10 CFR 73.67 and Part 37 material"

After reviewing the proposed license condition, the NRC staff proposes to modify

the proposed license condition to clarify that the only certain requirements of 10 CFR 73.67 apply.

Revised License Condition 2.C.(2), Physical Security:

“TMI-2 utilizes a security plan (TMI-2 Materials Security Plan) that is compliant with 10 CFR Part 37, “Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material.” The plan will implement 10 CFR Part 37 security requirements and also implement specific 10 CFR 73.67 security requirements referenced in the security plan that are not addressed by Part 37.”

Please review and let me know if TMI-2 Solutions agrees with the Revised License Condition above.

Thank you

A
