Title: Notice of meeting to discuss NRC's draft Regulatory Issue Summary (RIS) related to Clarification of Personnel Access Authorization Requirements for Non-Immigrant Foreign Nationals Working at Nuclear Power Plants

Date(s) and Time(s): August 09, 2022, 10:00 AM to 12:00 PM ET

Location: Webinar

Category: This is an Information Meeting with a Question and Answer Session. The purpose of this meeting is for the NRC staff to meet directly with individuals to discuss regulatory and technical issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed throughout the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The Office of Nuclear Security and Incident Response, Division of Physical and Cyber Security Policy staff are seeking public comment on a draft RIS dated May 27, 2022. This draft RIS reminds licensees of the requirement in 10 CFR 73.56(d)(3), "Verification of true identity", that prior to granting or reinstating unescorted access or certifying unescorted access authorization to non-immigrant foreign nationals for the purpose of performing work, licensees shall validate that the foreign national's claimed non-immigration status is correct and that verifying employment eligibility is an important component of the required validation. The NRC request for comment on this draft RIS closes on August 12, 2022, as described in the June 13, 2022, Federal Register Notice (87 FR 35798).
