**Re: Request for amendment of License No. 06-00854-03**

In addition to the request submitted on July 19, 2022, Saint Francis Hospital and Medical Center is requesting the following amendment to our NRC license:

George M. Daskalov, Ph.D. is currently listed for Material and Use of Carbon-14 and Strontium-90 for instrument calibration, Strontium-90 (Eye Applicator) for storage only.

Since the original request including removing George Daskalov from the license can you assign the material to George Pavlonnis.

Sincerely,

A handwritten signature in black ink, appearing to read "Tory Murtha".

Tory (Victoria) Murtha DNP, RN, OCN, CNML
