RE: NRC PROJECT NO. 99902088 – ABILENE CHRISTIAN UNIVERSITY, SUBMITTAL OF CONSTRUCTION PERMIT APPLICATION FOR THE MOLTEN SALT RESEARCH REACTOR

Pursuant to Title 10 of the Code of Federal Regulations, Part 50, Section 50.30 (10 CFR 50.30), Abilene Christian University (ACU) hereby submits an application for a construction permit to construct the ACU Molten Salt Research Reactor (MSRR) to be located on the ACU campus in Abilene, Texas.

The construction permit application consists of the following information:

- General information required by 10 CFR 50.33
- Preliminary Safety Analysis Report (PSAR) as required by 10 CFR 50.34(a)(1)
- An Environmental Review as required by 10 CFR 50.30(f), contained in Chapter 19, "Environmental Review," of the PSAR

ACU meets the definition of a non-profit educational institution in 10 CFR 170.3. Because of this, ACU is exempt from filing fees in accordance with 10 CFR 170.11(a)(4).

The general information required by 10 CFR 50.33 is as follows:

• Name of Applicant [10 CFR 50.33(a)]:

Abilene Christian University

• Address of Applicant [10 CFR 50.33(b)]:

ACU is not acting as an agent or representative of another person in filing this application.

• Class of License/Duration of License [10 CFR 50.33(e)]:

ACU is applying to the U.S. Nuclear Regulatory Commission (NRC) to obtain a Class 104c license for a research reactor under 10 CFR Part 50, "Domestic Licensing of

Abilene Christian University 1600 Campus Court Abilene, TX 79601 325-674-2000

Production and Utilization Facilities." The MSRR will be used for on-campus nuclear research and training opportunities for faculty, staff, and students in advanced nuclear technologies. Embedded in the 10 CFR Part 50-license will be a 10 CFR Part 70, "Domestic Licensing of Special Nuclear Material," license to receive, possess, and use special nuclear material, and 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material," license to receive, process and use byproduct material all in connection with operation of the facility. ACU expects to request an Operating License term of 20 years.

• Financial Qualifications [10 CFR 50.33(f)]:

The NRC requires that an applicant for a construction permit submit sufficient financial information that demonstrates that the applicant possesses or has reasonable assurance of obtaining the necessary funds to cover facility estimated construction costs and related fuel-cycle costs. An estimate of the total construction cost of the MSRR and related fuel cycle costs is presented in PSAR section 15.1.1. The sources of funds to cover these costs is discussed in section 15.1.2 of the PSAR.

• Construction Earliest and Latest Date for Construction Completion [10 CFR 50.33(h)]:

ACU currently expects to complete construction of the MSRR at the earliest six months after issuance of the construction permit and latest by 48 months after issuance of the construction permit.

Classified Information Agreement in Accordance with 10 CFR 50.37

ACU will not allow access to Restricted Data or classified National Security Information until the individual and/or the facility has been approved for access under provisions of 10 CFR Part 25, "Access Authorization," and/or 10 CFR Part 95, "Facility Security Clearance and Safeguarding of National Security Information and Restricted Data."
