Title: Presubmittal Teleconference with STP Nuclear Operating Company Regarding Proposed License Amendment Request to Revise the Dose Consequence Analysis for MSLB and LRA Events for South Texas Project, Units 1 and 2 (EPID L-2022-LRM-0063)

Date(s) and Time(s): August 31, 2022, 02:00 PM to 04:00 PM ET

Location: Teams Meeting and Teleconference

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose of this meeting, between STP Nuclear Operating Company (STPNOC) and the U.S. Nuclear Regulatory Commission (NRC) staff, is to discuss a proposed license amendment request to revise the dose consequence analysis for main steam line break (MSLB) and locked rotor analysis (LRA) events for South Texas Project, Units 1 and 2 (STP). The revised analysis would increase the cooldown timelines from 8 hours to 28 hours to address the slower cooldown rate in an asymmetric natural circulation scenario.

The NRC provides reasonable accommodations to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in a meeting or need a meeting notice or the transcript or other information from a meeting in another format (e.g. braille, large print), please contact Anne Silk, NRC Reasonable Accommodations Coordinator, at Anne.Silk@nrc.gov or call directly at 301-287-0745. Determinations on requests for reasonable accommodation will be made on a case-by-case basis. Ten (10) days' advance notice is requested to try to ensure availability; however, every effort will be made to address a request for reasonable accommodations with less notice.

PUBLIC MEETING AGENDA

Presubmittal Teleconference with STP Nuclear Operating Company Regarding Proposed License Amendment Request to Revise the Dose Consequence Analysis for MSLB and LRA Events for South Texas Project, Units 1 and 2 (EPID L-2022-LRM-0063)

August 31, 2022, 02:00 PM to 04:00 PM ET
