Subject: FYI - Hatch TSTF-505 LAR

Adam,

Since the Hatch TSTF-207 amendments were approved and those amendments made the TS pages the official Hatch TS pages, SNC has to supplement the TS pages for the Hatch TSTF-505 LAR. SNC will also need a write-up justifying why the Hatch TSTF-207 changes did not change the SNC proposal for the RICT on those TS pages (like a comparison of what SNC initially proposed for those TS pages versus how it looks with the new revised TS pages). Depending on when SNC provides the supplement, the Hatch TSTF-505 LAR could possibly be delayed.

Thanks.
John
