Subject: Additional Information to OMM Engineering Amendment Request, NRC License No. 21-25914-01; CN 631615
Date: Monday, July 18, 2022 4:44:00 PM

Good afternoon, Mr. Hughes:

Our office has reviewed your June 20, 2022 letter requesting to add a storage location for licensed materials at a National Storage Centers facility in Georgetown Twp, Michigan. From the letter, it is unclear (1) what the dimensions of the storage unit are; (2) whether the storage unit is climate controlled; (3) what the uses are of areas (or other storage units) above, below, or otherwise adjacent to the listed unit; (4) where the storage unit is located within the facility; (5) diagram of the storage unit showing any interior locked cages or other security; (6) how the unit is secured; and (7) whether the unit lessor is aware of the storage of licensed material in the referenced unit, under the lease.

To complete our review, could you please provide the following information, regarding the referenced storage area of use: (1) dimensions, or diagram showing the scale; (2) description of the unit including any temperature and pressure controls, etc.; (3) description of uses of areas adjacent to the listed storage area; (4) diagram showing the location of the storage unit, within the facility; (5) diagram showing how instruments stored therein will be secured from loss or theft; (6) description of the locks or other access controls to the storage unit as well as to the overall facility; and (7) a letter from the unit lessor, a copy of the lease, or other document showing that the lessor is aware of and/or has authorized the storage of licensed material on the facility premises.

If you could provide the information within the next 14 days (on or before August 1, 2022), it is appreciated. You may submit your information electronically as a signed and dated letter attached in pdf format, to an email message.

If you have any questions regarding this request, please do not hesitate to call or email me.

Sincerely,

Sara A. Forster, Health Physicist Licensing Reviewer
