---

Good Morning Mr. Richardson,

I have reviewed the request to remove your permanent storage location at 26445 Northline Road, Taylor, Michigan from your radioactive materials license, and I will need some additional information.

Please provide a signed and dated letter which addresses the following:

- a list of the gauges (including the serial numbers) which have been stored at this location
- a discussion of the historical leak test data (have you ever had a leaking gauge at the location?)
- a statement that all of the radioactive material has been removed from the location

You have already provided your final leak test for you gauges so you do not need to provide that information again. For your convenience, you may send the letter as a PDF attachment to an email. Please provide the additional information by close of business on October 14, 2022. If you have any questions you can reach me at 630-829-9876

Thank you,

*Erin Kennedy*
