HDI's objective for the meeting was to inform the NRC staff on its re-submittal progress with the RAI responses, schedule for future amended trust agreement submittals, and provide an opportunity for the NRC staff to comment and communicate on any areas within the HDI proposed draft RAI responses.

The NRC staff discussed the concerns as related in the RAIs for the trust agreement and how they related to the other sites with HDI's future submittal schedule. HDI stated that the clarifications and improvements to Indian Point 2's amended trust agreement would be incorporated into other future site submittals.

HDI continued the discussion on how the RAI responses and changes to the amended trust agreement provided a consistent understanding, and pursuant of Title 10 of the *Code of Federal Regulations* 50.75(h)(1)(ii), "Reporting and recordkeeping for decommissioning planning," as to the engagement of the "Authorized Person" along with an explanation of the Internal Revenue Service citations regarding the "Permissible Assets" as per "Special Terms." The NRC staff stated the adjustments made to the amended trust agreement with the draft RAI responses appear to meet the NRC's understanding where HDI may submit a new formalized version. This supplement was provided to the NRC staff in [ML22308A257](#).

The meeting was closed at 2:45 p.m., as HDI appreciated the NRC staff for the time and stated the clarification meeting was of great value continue with submitting the required RAIs.
