Subject: Docket No. 50-482: Revision of One Procedure that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Commissioners and Staff:

In accordance with 10 CFR 50.54(q)(5), WCGS is submitting a change to the emergency plan. Specifically, one procedure that implements the WCGS RERP has been revised. The revised document is identified below:

<u>Procedures</u>	<u>Effective Dates</u>
AP 06-002, Rev. 23	November 14, 2022

The attached summary of the changes to the implementing procedure explains that these changes do not reduce the effectiveness of the WCGS RERP.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

Summary of Changes to One Procedure that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

1. Procedure AP 06-002, "RADIOLOGICAL EMERGENCY RESPONSE PLAN," Rev. 23

Procedure AP 06-002 is being revised to incorporate the changes approved in License Amendment 232 which includes revising the on-shift staffing composition, including the elimination of the dedicated shift technical advisor (STA) position and one Nuclear Station Operator (NSO) position. Additionally, the revision updates Attachment D and Figure 2 to conform to the changes made to the Emergency Plan and on-shift staffing as approved by NRC License Amendment 232, dated May 18, 2022.

With the exception of two minor editorial changes, this procedure revision is fully bounded by NRC approved License Amendment 232, dated May 18, 2022 (ADAMS No. ML22069A056).

The editorial changes include:

1. Correcting the reference to the State Plan from "State Emergency Operations Plan" to "State of Kansas Radiological Emergency Response Plan for Nuclear Facilities"
2. Updating organization names and title changes that have been previously approved and implemented

The editorial changes have no impact on the effectiveness of the Wolf Creek Radiological Emergency Response Plan.
