**To:** Jerry Bingaman; Division.Radiological Health  
**Subject:** State Consultation: Request for Comments on Amendments to Sequoyah, Units 1 and 2, Operating Licenses (EPID L-2021-LLA-0145)

Good morning,

The U.S. Nuclear Regulatory Commission (NRC) is finalizing license amendments for Sequoyah Nuclear Plant, Units 1 & 2. In accordance with Title 10 of the Code of Federal Regulations, Section 50.91(b), I am notifying you of the proposed issuance of these amendments.

Please reply within 1 week if the State of Tennessee has comments on the following licensing action submitted to the NRC by Tennessee Valley Authority (the licensee): "Sequoyah Nuclear Plant, Units 1 and 2, License Amendment Request to Modify Approved 10 CFR 50.69 Categorization Process" dated August 5, 2021 (Agencywide Documents Access and Management System (ADAMS) Accession No. [ML22055A265](#)), as supplemented September 16, 2022 ([ML22259A127](#)). The proposed changes would modify the Sequoyah Operating Licenses to incorporate the use of the peer reviewed plant-specific Sequoyah seismic probabilistic risk assessment and fire probabilistic risk assessment models into the previously approved 10 CFR 50.69 categorization process ([ML19179A135](#)).

The associated proposed no significant hazards consideration for this amendment request was published in the Federal Register on April 19, 2022 ([87 FR 23274](#)).

Thanks,

**Perry Buckberg**

Senior Project Manager / Agency 2.206 Petition Coordinator
