SUBJECT Decommissioning Inspection Planning		
<p>SUMMARY AND ACTION REQUIRED (IF ANY)</p> <p>The NRC contacted the licensee to plan a Decommissioning site inspection. The site inspection was prompted by the NRC's independent review of the licensee's amendment request dated November 1, 2022 to remove licensed material from its license. The license currently authorizes two wet storage irradiators that each containing Co-60 for the irradiation of authorized material.</p> <p>The NRC's site visit is planned to review the licensee's past inventory of licensed material to include the review of disposal or other transfer records and to tour the site.</p> <p>In a subsequent email on 12/22/2022, the licensee indicated the site visit could be accomplished the third week of January 2023. The NRC indicated in a follow up email that a specific date will be put forward as soon as possible.</p>
