**Subject:** [External\_Sender] Mitigation for Hydrogen Concerns Commitment  
**Date:** Friday, December 30, 2022 8:22:16 AM

---

Dear Ms. Amy,

In the TMI-2 October 31, 2022, RAI response to the NRC, the following commitment was provided:

TMI-2 Solutions will establish a work planning instruction which will evaluate specific hydrogen concerns relevant to a given scope of work and include appropriate hydrogen mitigation measures appropriate for that work.

TMI-2S is revising the wording of the commitment to the following:

TMI-2 Solutions will establish hydrogen detection and mitigation measures to address concerns for planned work activities.

This action is scheduled to be completed by 15 March 2023.

Respectfully,

Tim
