Georgia EPD is ok with proposed changes.

FYI, Sean Hayes is no longer with the Environmental Radiation Program and can be left off these emails. Please cc. Barty Simonton and Tymeria Kelly, in addition to myself.

Thanks,

David Matos

Importance: High

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Mr. Hayes, Ms. Naar, Mr. Matos, and Mr. Dunn:

The U.S. Nuclear Regulatory Commission (NRC) staff plans to issue an amendment to Southern Nuclear Operating Company (SNC) for Edwin I. Hatch Nuclear Plant (Hatch), Units 1 and 2, on approximately February 24, 2023.

By application dated March 31, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML22090A279 [publicly available], and ML22325A278 [non-publicly available], as supplemented by letter dated November 18, 2022, ML22325A228 [publicly available] and ML22325A229 [non-publicly available], SNC requested changes to the approved fire protection program (FPP) for Hatch, Units 1 and 2.

The proposed license amendment request (LAR) would revise three modifications as described in LAR Attachment S, Table S 2, "Plant Modifications Committed," and add one new modification to the table referenced in the FPP Transition License Conditions 2.(C)(3)(c) for Unit 1 and 2.(C)(3)(a)(3) for Unit 2.

If the State of Georgia has comments on the LAR, please provide the comments by the close of business on February 04, 2023.

Best Regards,

Dawnmathews T. Kalathiveettil
