

PUBLIC MEETING ANNOUNCEMENT

Title: Discussion of Industry's efforts to develop a technology inclusive management of safety case (TIMaSC).

Date(s) and Time(s): May 11, 2023, 01:00 PM to 03:00 PM ET

Location: Webinar

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: For industry to outline its plans to develop TIMaSC. The purpose of TIMaSC would be to develop an endorsable guidance document for the management of a licensing modernization project (LMP) based safety case. Industry envisions TIMaSC would be used by licensees that follow the guidance in NEI 18-04, NEI 21-07, and NEI 22-05.
