

# Update on NEI 99-02, Revision 8

ROP Public Meeting

Sept 20, 2023

# Purpose

- Provide update on NEI 99-02 draft revision 8 major changes
- Submit for initial NRC review/feedback and discuss engagement strategy

# Overview

- Since revision 7 was issued in 2013
  - 50 FAQs have been approved\*
  - 2 FAQs pending
    - ◆ 22-01, Replace the ANS PI with ERFER PI
      - Commission issued SRM-SECY-23-0010 on 9/1/2023
    - ◆ 23-02, PB Scram (finalize on 9/20/2023)
  - 1 White Paper, AP1000 (in review)

\* The current list of approved FAQs can be found on the [NRC website](#).

# Draft Changes

## ■ Summary of Changes

- Replaced references to Consolidated Data Entry (CDE) with Industry Reporting and Information System (IRIS) throughout
- Incorporated definition of “concurrent failure” (FAQ 14-04)
- Added definition of “initial transient” (FAQ 18-01)
- Major reformatting of MSPI section including App. F&G (FAQ’s 13-06, 14-01, 14-02, 14-08, 15-03, 16-01, 16-02, 16-03, 16-04, 17-03, 17-04, 17-05, 20-03)
- Major reformatting/rewrite of EP section (FAQ’s 13-07, 19-01, 20-04, 21-02, 15-04, 20-02, 14-05, 21-03)
  - ◆ *Includes placeholder language for FAQ 22-01, ANS PI to ERFER PI*
- Added new plant specific FAQs (14-03, 17-01, 17-02, 18-03, 18-04, 20-01)
- Updated criteria to account for AP1000 design difference (FAQ 21-01 & *pending white paper*)
- Updated BWR question for verifying rod position (FAQ 15-01)

# Draft Changes

## ■ Additional Changes

- Address frequently asked questions and other areas that warrant additional clarity
  - ◆ MFW availability
  - ◆ Use of CBPs & AFW
  - ◆ BWR SRV usage
  - ◆ Additional examples describing planned scrams versus unplanned scrams
    - post maintenance activities such as expected actions taken to address main turbine rubs and vibration during plant startup
    - Complete a reactor shutdown sequence less than 35% following completion of transient response when reactor trip criteria was not reached
  - ◆ Add clarity to unplanned power change exclusion when addressing other issues during a planned power reduction greater than 20% (FAQ 13-02, 13-05)

# Next Steps

- Submit draft rev. 8 to NRC during Sept 20<sup>th</sup> ROP public meeting
- Finalize/incorporate open FAQ/white paper feedback
- Discuss and incorporate NRC feedback as appropriate during ROP public meetings (*additional ROP public meetings may be warranted*)
- Implement NEI 99-02 rev. 8 TBD

# Questions
