

December Public Workshop to Discuss Corporate Inspections

**ROP Bi-Monthly Meeting
November 16, 2023**

**Douglas Bollock and Amar Patel
US Nuclear Regulatory Commission
Nuclear Reactor Regulation
Division of Oversight**

Public Workshop

- Two-hour workshop – December 2023 (exact date/time TBD)
 - Soliciting input on the date/time
- NRC facilitating discussion focused on evaluating any potential inspections or areas that could benefit from consolidation

Next Steps Following Workshop

- NRC staff evaluates options gathered during workshop
- NRC management briefed on results – January/February 2024
- Inform Public and Industry of NRC evaluation results in future public meeting - March 2024

Things to Ponder

- What NRC inspections should be considered for corporate inspection?
- How would any issues/violations found be adjudicated?
- How would those inspections fit into the ROP?

Things to Ponder - continued

- How would corporate inspections increase effectiveness and efficiencies?
- What could be some unintended consequences or shortfalls?
- What other changes to the ROP inspection program should we consider/reconsider?
