Date(s) and Time(s):	January 23, 2024, 02:00 PM to 04:00 PM ET

Category:	This is a Open meeting. Public participation is actively sought for this meeting to fully engage the public in a discussion of regulatory issues.		
Purpose:	On May 17, 2023, the NRC staff held a public meeting on its Integrated Low-level Radioactive Waste Disposal rulemaking that will integrate disposal criteria for the near-surface disposal of Greater-than-Class C waste and the ongoing Part 61 rulemaking. In that meeting, staff described the rulemaking background and preliminary direction on the key technical topics and answered questions from participants. The NRC staff is planning to hold a second public meeting on this rulemaking. The meeting will include a brief overview of the rulemaking history and the proposed changes. The majority of the meeting time will be reserved for members of the public to make presentations and to ask questions.
