Date(s) and Time(s): March 25, 2024, 03:00 PM to 04:00 PM ET

Location: Webinar

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose of this meeting between Wolf Creek Nuclear Operating Corporation (WCNOC, the licensee) and the U.S. Nuclear Regulatory Commission (NRC) staff is to present the NRC's revisions to the safety evaluation (SE) related to Amendment No. 237. The licensee notified the NRC that the SE issued with that amendment did not correctly reflect the scope of its license amendment request, and it requested that the SE be revised and reissued (Agencywide Documents Access and Management System (ADAMS) Accession No. ML23292A357). Publicly available presentation slides for this meeting can be found in ADAMS at Accession No. ML24071A210.
