## ***ADAMS Public Search Public Meeting Questions***

We are from the U.S. Nuclear Regulatory Commission (NRC) and we are interested in getting your thoughts on how the existing Web-Based ADAMS (WBA) application is working for you. We will use your input and feedback to help us develop a modern application that will be called ADAMS Public Search. As a focus group is one of the preferred ways to communicate with the NRC, we have some questions to ask you. Answering any of these questions or participation in the focus groups is entirely voluntary.

- Are you aware of the Web-Based ADAMS (WBA) application?
- If you are familiar with WBA, what brings you to ADAMS? What information are you seeking and what questions are you looking to answer when you visit the site?
- Do you currently use WBA?
- What features would you like to see in the new modern ADAMS Public Search application?
- Is there anything we haven't covered that would make you more likely to use the ADAMS Public Search?
