

**NRC Public Meeting:  
Draft Standardization  
Recommendations for License Renewal  
Applications**

NRR/DNRL

**February 12, 2025**

# Meeting Agenda

- **Background**
  - Technical Review Package (TRP) Tool
  - Draft Standardization Recommendations for License Renewal Applications (ML24184C131)
- **External Stakeholder Comments and Discussion**
- **Public Comments**

# Background

- **There are ongoing efforts to actively improve the efficiency of the license renewal review process.**
  - SECY-24-0026, "Achieving Timely Completion of License Renewal Safety and Environmental Reviews (License Renewal Roadmap" (ML24059A131)
  - SECY-24-0026A (ML24001A364)
- **TRP Tool modernization**

# Background

- **Draft Standardization Recommendations for License Renewal Applications was issued July 2024.**
  - Standardizing application tables, nomenclature, and changes allows for automatic processing of the application and any changes.
- **Currently:**
  - License renewal application: automatic processing
  - Changes to the application: manual processing

**Following standardization recommendations is not required.**
