

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**  
REGION IV  
1600 EAST LAMAR BOULEVARD  
ARLINGTON, TEXAS 76011-4511

March 11, 2025

Adam C. Heflin, Executive Vice President,  
and Chief Nuclear Officer  
Arizona Public Service Company  
P.O. Box 52034, MS 7602  
Phoenix, AZ 85072-2034

SUBJECT: ANNUAL ASSESSMENT LETTER FOR PALO VERDE NUCLEAR  
GENERATING STATION - UNITS 1, 2 AND 3 REPORT 05000528/2024006  
AND 05000529/2024006 AND 05000530/2024006

Dear Adam Heflin:

The U.S. Nuclear Regulatory Commission (NRC) has completed its end-of-cycle performance assessment of Palo Verde Nuclear Generating Station, Units 1, 2, and 3, reviewing performance indicators (PIs), inspection results, and enforcement actions from January 1, 2024, through December 31, 2024. This letter informs you of the NRC's assessment of your facility during this period and its plans for future inspections at your facility. The NRC concluded that overall performance at your facility preserved public health and safety. The baseline inspection program was completed at your facility as defined in Inspection Manual Chapter 2515, "Light-Water Reactor Inspection Program - Operations Phase."

The NRC determined the performance at Palo Verde Nuclear Generating Station, Units 1, 2, and 3 during the most recent quarter was within the Licensee Response Column, the highest performance category of the NRC's Reactor Oversight Process (ROP) Action Matrix, because all inspection findings had very low safety significance (i.e., Green), and all PIs were within the expected range (i.e., Green). Therefore, the NRC plans to conduct ROP baseline inspections at your facility.

The enclosed inspection plan lists the inspections scheduled through December 31, 2026. The NRC provides the inspection plan to allow for the resolution of any scheduling conflicts and personnel availability issues. Routine inspections performed by resident inspectors are not included in the inspection plan. The inspections listed during the last 12 months of the inspection plan are tentative and may be revised. The NRC will contact you as soon as possible to discuss changes to the inspection plan should circumstances warrant any changes.

This plan also includes two non-routine inspections in calendar year 2025 which are, inspection procedures IP 71003 License Renewal (Post-Approval Site (Units 1, 2, and 3) Inspection – Phase 2) scheduled March 3 – 21, 2025, and IP 71003 License Renewal (Unit 3 – Phase 1) scheduled October 5 – 11, 2025. The regional administrator has approved implementation of these inspection procedures.

This letter and its enclosure will be made available for public inspection and copying at [ADAMS Public Documents | NRC.gov](https://www.nrc.gov/readingrm/adams/) and at the NRC Public Document Room in accordance with Title 10 of the Code of Federal Regulations 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Please contact me at (817) 200-1574 with any questions you have regarding this letter.

Sincerely,

Signed by Dixon, John  
on 03/11/25

John L. Dixon, Jr., Chief  
Reactor Projects Branch D  
Division of Operating Reactor Safety
