Division of Fuel Management

Office of Nuclear Material Safety and Safeguards

Email: Osiris.Siurano-Perez@nrc.gov

Phone: 301-415-7827

Meeting Purpose

Discuss electrical distribution and instrumentation and controls for Orano's proposed Project IKE Uranium Enrichment Facility to be located in Oak Ridge, Tennessee. The information will be provided to support Orano's application for a Title 10 of the *Code of Federal Regulations* Part 70, "Domestic Licensing of Special Nuclear Material," special nuclear materials license for the facility.

Meeting Category and Public Participation

This is a Partially Closed meeting. The first portion will be open for public observation and attendees will have an opportunity to ask questions to the NRC staff or make comments about the issues discussed. No comments towards regulatory decisions are being actively solicited at this meeting.

The second portion will be closed to the public because the NRC staff has determined that the information to be discussed is either proprietary, security-related, or safeguards information.
