Phone: 301-415-7827

Meeting Purpose

Discuss Integrated Safety Analysis, Management Measures and Quality Controls, and Material Control and Accounting requirements and programs for the IKE Enrichment Facility to be located in Oak Ridge, Tennessee. Discussions during this meeting are intended to support Orano's plans for submitting an application for a Title 10 of the *Code of Federal Regulations* Part 70, "Domestic Licensing of Special Nuclear Material," special nuclear materials license for the facility.

Meeting Category and Public Participation

This is a Partially Closed meeting. The first portion will be open for public observation and attendees will have an opportunity to ask questions to the NRC staff or make comments about the issues discussed. No comments towards regulatory decisions are being actively solicited at this meeting.

The second portion will be closed to the public because the NRC staff has determined that the information to be discussed is either proprietary, security-related, or safeguards information.
