Title: Pre-submittal Meeting with Duke Energy to Discuss a Proposed Alternative for Extending Volumetric Examination Interval of High Pressure Injection (HPI) Nozzle Welds

Date(s) and Time(s): September 10, 2025, 02:15 PM to 03:30 PM ET

Location: Teleconference

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose of this meeting is to discuss a proposed alternative for Oconee Nuclear Station, Units 1, 2 and 3, to extend the volumetric ultrasonic examination interval for seven HPI nozzle Alloy 82/182 welds from every other inspection period to once per 10-year code interval, with the possibility of up to 13 years between examinations. The licensee is requesting that this alternative apply for the remaining life of the plant, covering the current and future code intervals approved under the subsequent license renewal.

If you need a reasonable accommodation due to a disability to participate in this meeting or need meeting materials in another format (e.g. braille, large print), please email Reasonable_Accommodations.Resource@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis and the agency may choose between which effective accommodations to provide. At least ten (10) days advance notice is recommended in order for a request to be processed and implemented if approved. However, every effort will be made to address any reasonable accommodations requests received with less notice.

If you have difficulty understanding and/or communicating in English, free language assistance or other aids and services may be available, upon request. Please email lepresources@nrc.gov. Determinations on requests will be made on a case-by-case basis. At least ten (10) days advance notice is recommended in order for a request to be processed and implemented if approved. However, every effort will be made to address any reasonable accommodations requests received with less notice.
