Phone: 301-415-7827

Meeting Purpose

- Orano has requested this meeting to
 - ✓ Provide an overview of Orano's process for developing the Integrated Safety Analysis (ISA) and ISA Summary
 - ✓ Provide an overview of its Management Measures and Quality Controls to ensure compliance with the performance requirements in 10 CFR 70.61 for an enrichment facility
 - ✓ Review Orano's quality control graded approach for items relied on for safety (IROFS) for the proposed facility.
- Information discussed will support Orano's plans for submitting its application for a Title 10 of the *Code of Federal Regulations* Part 70, "Domestic Licensing of Special Nuclear Material," special nuclear materials license for the facility.

Meeting Category and Public Participation

This is a Partially Closed meeting consisting of two sessions. A first session that will be open for public observation after which members of the public will have an opportunity to ask questions or make comments to the NRC staff about the issues discussed. No comments towards regulatory decisions are being actively solicited. The open session will be followed by a session that will be closed to the public because the NRC staff has determined that the information to be discussed is either proprietary, security-related, or safeguards information.
