Title: Discussion on NEI's Digital Instrumentation and Controls (DI&C) Recommendations: Accelerating NRC Reform

Date(s) and Time(s): January 14, 2026, 02:00 PM to 04:00 PM ET

Location: NRC One White Flint North, OWFN 7B4  
11555 Rockville Pike  
Rockville, MD

Category: This is an Information Meeting with a Question and Answer Session. The purpose of this meeting is for the NRC staff to meet directly with individuals to discuss regulatory and technical issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed throughout the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: On May 23, 2025, Executive Order 14300, "Ordering the Reform of the Nuclear Regulatory Commission," directed the NRC to address a wide range of activities, including reforming and modernizing the NRC's regulations and associated guidance documents. By letter dated July 31, 2025, the Nuclear Energy Institute (NEI) provided specific recommendations for implementing the executive order, including recommendations for enabling faster deployment of modern technology while preserving safety. The purpose of this meeting is for the staff to present its plan for evaluating and identifying actions for implementing the DI&C recommendations and for NEI to summarize the recommendations and the associated basis for each recommendation.
