**Reference: PFS Letter, Donnell to U.S. NRC, Commitment Resolution
Letter #22, dated November 19, 1999**

In the above referenced letter PFS committed to consolidate all the previous submittals on the issue of Aircraft and Ordinance Crash Hazard Assessment into one consolidated report that contains the latest information as well as the clarifications requested during the November 16, 1999 meeting. This new report entitled "Aircraft Crash Impact at the Private Fuel Storage Facility" dated November 24, 1999 is enclosed. In the attached report PFS has not only consolidated its prior submissions regarding aircraft crash risks to the PFSF, but has also taken a fresh look at the data, information and the models used to perform its risk calculations. PFS has done so in order to ensure their accuracy and the use of the latest, available information and to improve its approach by making it clearer and more concise, consistent, and conservative.

Future modifications, if any, to the analysis of aircraft crash hazards at the PFSF will be incorporated in an update to this consolidated report. An update to SAR Chapter 2 on hazards from aircraft crashes will be included in the License Application Amendment scheduled for issuance on December 10, 1999.

If you have any questions regarding this submittal, please contact me at 303-741-7009.

Sincerely

**John L. Donnell
