Docket No. 030-05980

License No. 37-00030-02

Mr. William E. Lynch, Jr.  
Vice President  
Safety Light Corporation  
4150-A Berwick Road  
Bloomsburg, PA 17815

Dear Mr. Lynch:

This is regarding Amendment No. 48 to License No. 37-00030-02, issued to Safety Light Corporation by letter dated September 29, 1999. This amendment responded to your August 4, 1999, request for approval of the Health and Safety Plan for remediation of the two silos located on the site.

As a matter of clarification, issuance of this Amendment provided SLC approval for the requested remediation activity; it did not provide NRC authorization for the use of any funds identified in the Settlement Agreement of December 28, 1994 between SLC, et al and NRC. That Agreement requires SLC to specifically request such funding authorization from the NRC. Approval of fund expenditures must be provided in writing by the NRC staff prior to any funds being removed from any account identified in the Settlement Agreement. In addition, we would expect that any expenditures for the silo remediation would come from the funds you have received from the recent insurance settlements.

Please contact Ronald R. Bellamy, Chief, Decommissioning and Laboratory Branch (610-337-5200), James Kottan, Project Manager (610-337-5214), or myself (610-337-5281) if you have any questions concerning this matter.

Sincerely,

George Pangburn, Director  
Division of Nuclear Materials Safety
