November 04, 2019

Title: Pre-application teleconference with NextEra Energy Point Beach, LLC (NextEra) to

discuss license amendment request (LAR) to address Tornado Missile Protection (TMP) at

Point Beach Nuclear Plant (PBNP), Units 1 and 2.

Date(s) and Time(s): December 04, 2019, 10:30 AM to 11:30 AM

Location: NRC One White Flint North, 08B-02

11555 Rockville Pike

Rockville, MD

Category: This is a Category 1 meeting. The public is invited to observe this meeting and will have

one or more opportunities to communicate with the NRC after the business portion of the

meeting but before the meeting is adjourned.

Purpose: The purpose of this pre-submittal teleconference with the NRC staff is to discuss a

proposed LAR to modify the PBNP, Units 1 and 2 licensing basis for TMP. In a May 1, 2018, pre-submittal meeting, NextEra described its plan to submit the Point Beach high winds probabilistic risk assessment (PRA) as the basis for eliminating the spectrum of high wind events as a site hazard. However, they have recently decided to simply request authorization to incorporate original construction design information into the licensing basis description of TMP. This subsequent pre-submittal meeting will address resolution of the non-conformances currently under enforcement discretion (Agencywide Documents
